

# "RAM" Power Snare Systems

The "RAM" kills quickly! This allows the use of lighter "Breakaway Snares" Holds your Coyote, but breaks for big game!

### "RAM" Power Snare System Features:

- Made with the finest spring steel available - many grades better than your best conibear spring.
- No fur damage. Fully Guaranteed.
- Easily dyed using liquid trap dye, such as "Speed Dip".

- Simply designed - weatherproof trigger.
- No lock needed - the arms of the "RAM" are the best lock available.
- Comes equipped with a safety catch and one snare and full setting instructions.
- Humane** - Kills in minutes. No water heads.
- Reduced Losses** - Dead animals cannot chew out or attract thieves.
- Increased Income** - Better fur grades due to fast kill.
- Fur Buyers and Taxidermists prefer "RAM" caught fur.
- No locks to Ice up** - The "RAM" spring arms keep the pressure on so the snare cannot relax. The "RAM" - better than any lock.
- Increased Production** - Since the "RAM" kills your catch quickly, you can use smaller cable, which is harder for the animal to see.
- More Selective** - Use the Breakaway snare - holds your animal but breaks for big game.
