AMBERG SNARE AND LOCK

- (We are the Canadian Distributor)

The Amberg Snare Lock is quickly becoming the choice of many fur trappers. Its popularity is mostly due to its ability to quickly dispatch with a minimal of struggle and stress to the animal. If you are tired of "water heads", ruined locations and a high percentage of loss due to chew outs, **GIVE THE AMBERG LOCK A TRY.** Snares sold on Page 6 under AM1 and AM2. Locks found on this Page.

We are closed from May 15th until August 31st Each Season
